**THE LARGEST EXPEDITION
OF WOMEN SCIENTISTS
TO ANTARCTICA**

Leaders acting for gender equity and a sustainable future for our planet

PROGRAM

80 women in science were chosen globally to receive 12 months of focused leadership, communication and visibility training to tackle critical issues facing our planet:

- Gender equity
- Climate change
- Science literacy
- Sustainability

The program culminates in the world's largest all-female scientific expedition to Antarctica in February 2018.

IMPACT

- Include more women at the leadership table
- Improve the decision-making agenda for a more sustainable future
- Inspire the next generation of women

GLOBAL SUPPORT

The program is not only viable and in progress, it has the support of these prominent thought leaders:
